

# 545 1A

## POWER SUPPLY & DISTRIBUTION MODULE [+15/-15/+5 VOLT]

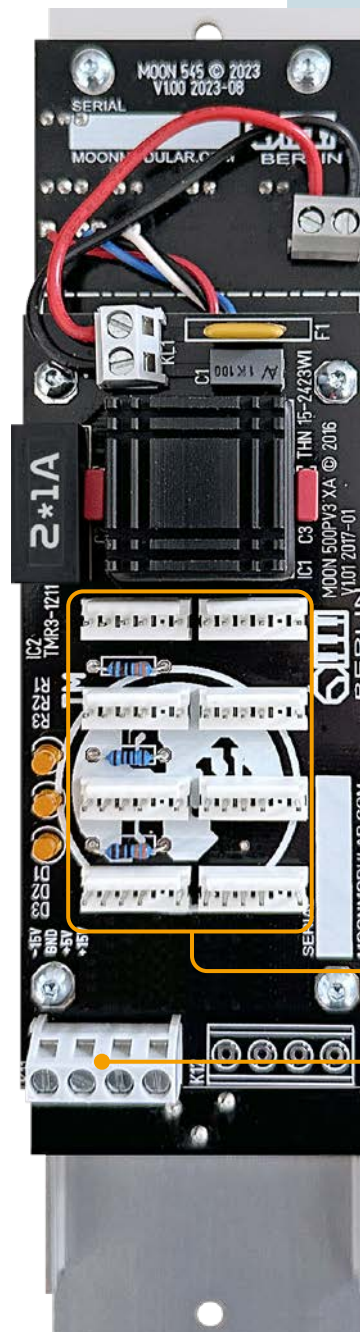

Three voltage signal LEDs

Power on/off switch

Quad multiple jacks

Input for external 12 V DC power supply (2.5 A multi region power adapter is included)

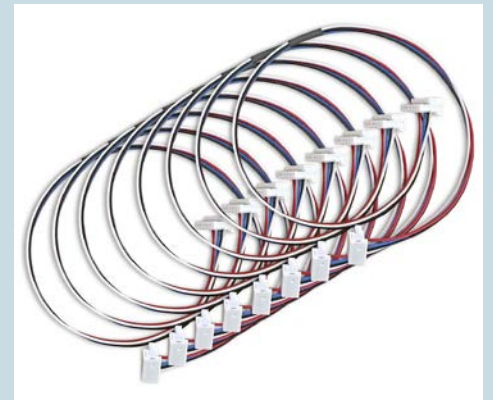

The **M 545 1A Power Module** combines a one unit module with a eight header distribution board, a four jack multiple, master switch and display leds for the three voltages.

Eight DotCom\* style power connectors to feed the attached modules.

Via the dedicated connector an extra power distribution board (500PD) can be applied to drive more modules.

The three output voltages are +15 V (1 A) | -15 V (1 A) | +5V (0.6 A)

A 2.5A external multi region power adapter and eight 500-PDotCom cables are included.

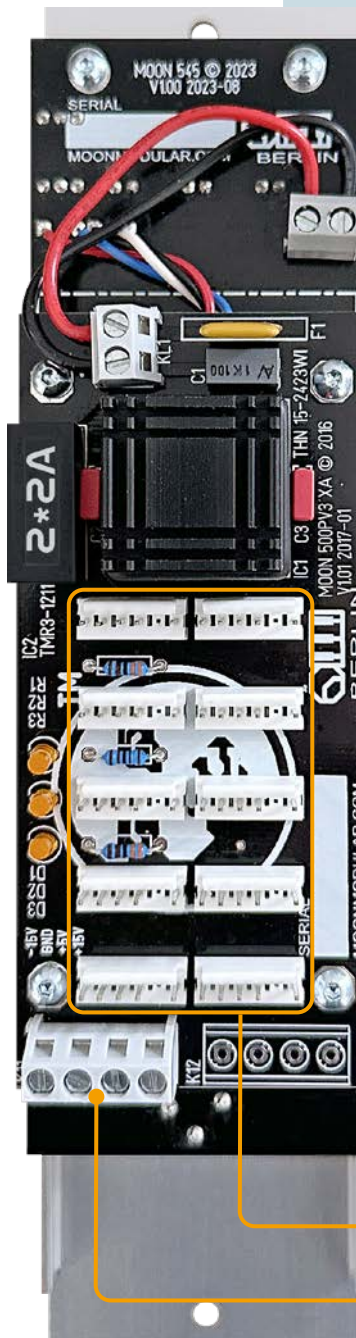

8 DotCom\* style connection headers to feed the modules

Connection point to feed an extra power distribution board 500PD (not included)

# 545 2A

## POWER SUPPLY & DISTRIBUTION MODULE [+15/-15/+5 VOLT]

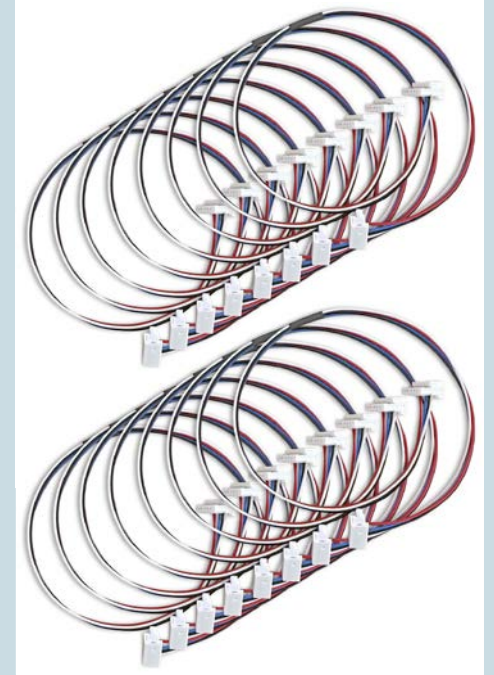

The **M 545 2A Power Module** combines a one unit module with a ten header distribution board, a four jack multiple, master switch and display leds for the three voltages.

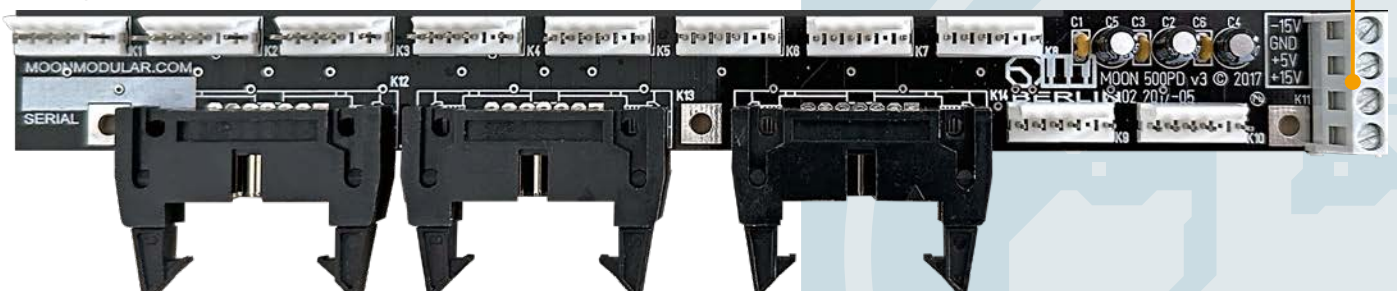

Ten on board DotCom\* style power connectors to feed the attached modules plus one extra distribution board.

The three output voltages are +15 V (2 A) | -15 V (2 A) | +5V (1.2 A).

A 5A external multi region power adapter and sixteen 500-PDotCom cables (40 cm long) are included as well as a dedicated power distribution board with ten DotCom\* and three COTK\* headers (500PD).

Extra power distribution board (500PD)
